Three Day National Workshop on Open Source Software: Greenstone Digital Library (GSDL) - Basic

June 13-15, 2015

Greenstone Digital Library Software

Greenstone is a suite of software for building and distributing digital library collections. It provides a new way of organizing information and publishing it on the Internet or on CD-ROM. Greenstone is produced by the New Zealand Digital Library Project at the University of Waikato, and developed and distributed in cooperation with UNESCO and the Human Info NGO. It is open-source, multilingual software, issued under the terms of the GNU General Public License.

Greenstone Support for South Asia

Greenstone is a powerful and flexible software which is of great potential interest to libraries and information centers and other public and private institutions in South Asia. This support effort is undertaken by the CDDL at IIM Kozhikode in collaboration with the [Digital Library Network South Asia](#) and the [Greenstone development team](#) in order to ensure effective promotion and support for Greenstone in South Asia..

Aim of the Workshop

The aim of this workshop is to promote the awareness of GSDL among faculty librarians and teaching faculty members in all colleges. Most of them having awareness of DSpace only, but this is a golden opportunity to them to learn the fundamental knowledge of GSDL using TEQIP programme.

Workshop Coordinator: Mr. Reji Tom Lal

Resources

Software

[Java Runtime Environment](#)

[Greenstone 2.86 Installer](#)

Workshop Materials

- [Sample Files](#)
- [Programme Schedule](#)
- [Lab Exercises](#)

Greenstone Manuals

- [Installer's Guide](#)
- [User's Manual](#)
- [Developer's Guide](#)
- [From Paper to Collection](#)

Resource Persons

- [Dr. M.G Sreekumar](#), IIM Kozhikode
- [Mr. Biju R](#), IIM Kozhikode
